

**Policy Committee Meeting**  
**May 16, 2023**  
**5:30 PM**  
**District Office**

***Board Members Present:***

Jake Lower  
Lori Nelson

***Also Present:***

Supt. Scott Petrie

**Faith's Law Trailer Bill**

Discussed the challenges new requirements for employee screening would present to the district. The employment history review while beneficial to hiring trustworthy employees will present extra challenges during the hiring process. Parent communication for incidents involving sexual misconduct was also discussed to ensure that our district is communicating information to parents and guardians.

**Accelerated Placement Program**

The accelerated placement program was talked about in terms of benefits and concerns. The district needs a plan in place for the 2023–2024 school year so the students can begin automatic enrollment in the 2024–2025 school year. We discussed the challenges this would provide from a course standpoint. In some subjects such as science, we don't currently have an advanced course. Also from a facilities standpoint, this might add additional classrooms as well as faculty.

**Library Media Program and Resources**

We discussed and reviewed the challenges of other local districts with library resources. Included in our resources we reviewed several options of how to handle similar challenges if they should arrive. Including forms and procedures for following up with such challenges.
